3**Laguna de los Tres, Fitz Roy Mount**

Early in the morning, after breakfast, we take the bus upon Hosteria El Pilar where we start hiking to see one of the most spectacular viewpoints of the National Park: Laguna de los Tres, with its zephyr blue color, lies at the foot of the massif, offering full close up views of Fitz Roy massif spires and glaciers. Each wall raises something from 600 to 1500 mts above the surrounding glaciers. Fitz Roy, with its 3405 mts above sea level, is considered the “King of Patagonia” and also considered one of the three most beautiful mountains on Earth. In the late afternoon, we hike back to our hotel.

DAY
4**El Chalten - Lago del Desierto**

After breakfast we transfer to the Aguish Arriba Lodge located in a privileged place on Lago del Desierto from where it has incredible views of the north face of Cerro Fitz Roy and the Vespignani Glacier. Once we arrive we can choose between the following options:

Entering the Lodge on foot: While the luggage is taken by the Lodge boat, we can cross the bridge over Río de las Vueltas, which is located a few meters from Punta Sur. The walk lasts around 2: 30/3: 00 h. Once we arrive at the Lodge, a delicious lunch will be waiting for us, with amazing views of Lago del Desierto.

Or as a second option we can access to Punta Norte and the Hito Fronterizo. We can reach Punta Norte walking from the Lodge around 2 and 3 hours or by boat. Once at the gendarmerie post, which is located in Punta Norte, continuing north, with a 2-hour walk we will reach Laguna Larga and the Border landmark, accessing Chile through the southernmost Andean pedestrian pass.

The rest of the day is free to enjoy the Lodge in a unique natural environment.

6**Cerro Torre Trail - El Calafate**

Today, we visit the Torre valley. This valley starts as a glacier valley in the Laguna Torre reaching town as a fluvial valley. Is shorter and with less gain of altitude than Fitz Roy trail. We get to a first viewpoint of the glacier part of the valley after a first hour of walking. Depending on conditions, we will go on to reach the lagoon, natural viewpoint for the group of ice-mushroom-covered spires of Cerro Torre massif. Its blue colour and dimensions are breathtaking. We hike back to El Chaltén in the late afternoon to take our bus to El Calafate.

DAY
7**El Calafate - Perito Moreno Glacier**

We dedicate this day to one of the World's Natural Wonder: the Moreno glacier. This ice field- type glacier flows down from the Patagonian Ice field, a big sheet of ice that with its 22.000 square kilometers is the third largest glacier area in the world, after Antarctica (14 M sq. km) and Greenland (1 M sq. km). Because unusual favorable local conditions, this glacier is the only one in the world that shows a closure and rupture process. The road leads to the very front of the glacier, which will be only meters away from your eyes. The roar of the chunks of ice falling inside the glacier or from the glacier into the lake, the frequent collapse of the front seracs into the turquoise water, makes out of this day a very special and unique experience.
